## **IT Steering Committee Charter**

The purpose of the charter document is to document the fact that your organization believes the IT function is critical to the success of the organization. You create an IT Steering Committee to oversee and report on how IT is implemented in the organization.

Use the text in this template as your starting point for your IT steering committee charter. When you review the rules, simply delete any rule that doesn't apply in your organization, and the remaining rules will be re-numbered automatically.

Use this template from [Toolkit Cafe](#) to build an efficient and effective IT Steering Committee Charter.

Included in this ZIP file are:

- IT Steering Committee Charter.doc
- Intro Doc.pdf
- Terms and Conditions.pdf
