SIEM Vendor Shortlist Tool

This tool allows enterprises to profile their Security Information & Event Management (SIEM) requirements and generate a rank-ordered vendor shortlist. You can use this ranking to thin your options before sending out RFPs and scheduling vendor demonstrations.

Vendor profiles are based on Info~Tech Research Group's recent in-depth review of the SIEM market.

Some of the attributes covered by the tool include:

É Advanced features including enhanced capabilities for event correlation, aggregation and normalization, alerting, reporting, forensic analysis and data management.
É Product usability.
É Relative cost.
É Variable prioritization for vendor suitability on the following factors:
   É   Vendor viability.
   É   Size and strength of the channel.
